

## Simple, Sound and Secure

**THE POPULAR SHED OR WORKSHOP IS DESIGNED FOR SIMPLICITY TO PROVIDE AN ATTRACTIVE CONCRETE BUILDING, PRACTICAL FOR A VARIETY OF USES WHILE ALSO PROVIDING MAXIMUM SECURITY.**

The standard Popular is made from steel reinforced 6ft 6 high interlocking concrete panels for greater strength and rigidity and is finished in a Cotswold stone. It is supplied with a white powder coated Fort Knox high security door with a 3 point, 10 bolt locking system and made from double-skin steel with concealed hinges.

The most secure door in the sectional concrete building industry. The roof is of high strength uPVC, sloping front to rear and has an anti-condensation coating to the underside with white uPVC fascia boards all round for a clean looking appearance.
