

High Security

Concrete Sheds from *Leofric*

- 6ft 6 steel reinforced interlocking concrete panels
- Fort Knox high security, 3-point, 9-bolt locking, 50mm, double skinned steel door with an attractive brushed steel handle and stainless steel cill.
- Fascia and roof of plastisol coated steel for strength, looks and rigidity in a choice of colours
- Insulation blanket for real anti-condensation and thermal properties
- Base problem? Not anymore, Leofric can now provide a toughened 'TPR' resin base to suit any size shed. No need for a concrete base. No need for expensive materials and preparation
- uPVC sliding double glazed windows if required
- Finished in a soft cotswold stone as standard. Other finishes available to suit any environment
- 15 Year Structural guarantee
