

**Leofric**  
BUILDING SYSTEMS LTD

# The Norton

The Leofric Norton Apex style Garden building, suitable as a Shed, Workshop, Store room or anything requiring maximum security with ease of access. Made from 7ft high steel reinforced interlocking concrete panels for maximum strength.

Available in upto 12 size combinations ranging from 4ft 6in x 4ft 6in to 8ft 6in x 13ft 10in, includes a Fort Knox high security door, white powder coated, double skin, twin opening giving a maximum opening width of 1050mm. The highest security is guaranteed with a 3 point, 10-bolt locking system with a strong rigid frame and stainless steel cil. The double door is available in all but the smallest size building 4ft 6in x 4ft 6in.

The standard finish is Cotswold, a small rounded buff stone, quarried locally in the Cotswolds. It is also available in Canterbury, Whitespar or Brownstone finish at a small extra cost.

Windows are optional in uPVC. Single or double size units are available, double glazed, in side sliding, top opening or fixed.

**metrotile**  
LIGHTWEIGHT ROOFING

High Grade Granular Steel Roof.

The Leofric Norton design has a 15 degree pitch Apex with a Metrotile lightweight high grade steel roof coated in Aluzinc and bonded with charcoal grey stone granules with matching ridges.

## Specification.

1. Panels & finish: 7ft high steel reinforced concrete panels, interlocking for greater strength and rigidity. Comes in a round Cotswold stone as standard. Other finishes are available including plain - suitable for rendering.
2. Damp Proof: The chance of water ingress through the base is greatly reduced by the fitting of a special bitumen-based “damp course” membrane between panel and base. (Optional extra) This seals the panel to the
3. Metrotile lightweight roofing. High Grade Granular Steel Roof. The Leofric Norton design has a 15 degree pitch Apex with a Metrotile lightweight high grade steel roof coated in Aluzinc and bonded with charcoal grey stone granules with matching ridges.
