

Natural Look 30mm Bicolor Artificial Grass (LT30-U)

GENERAL CARE

Remove debris such as leaves and branches from the surface using a leaf blower or a plastic rake. Do not use a rake with metal or wire bristles on the turf this can tear the fibers. Occasionally use a stiff broom brush to rake the fibers against the grain, paying attention to high traffic areas. This helps fluff the fibers to keep them standing up and evenly levels the infill.

In areas where rainfall is scarce, you may lightly spray Lawn occasionally to help flush debris, allergens and other airborne buildup that might accumulate on the turf.

SPILLS AND STAINS

If you spill sticky or staining substances on your turf, clean the area promptly. You may use a mop with a diluted mild detergent. Do not use cleaners that contain chlorine bleaches or highly acidic cleansers. Rinse area thoroughly following mopping with clean water to remove soap residue.

For oil-based stains, use a grease spot remover (perchloroethylene, dry cleaning solution). Stains of this variety could include motor oil and grease, cooking oil, suntan oil or floor wax. For chewing gum, tree sap, and other especially sticky substances, you can use a dry cleaning fluid as mentioned above, or remove by freezing. Most carpet cleaning suppliers will sell aerosol packs of refrigerant for these purposes.

SNOW AND ICE

Allow snow and ice to melt and drain naturally through the artificial grass. Do not try to break the ice or use a shovel on the turf as this can break the frozen grass fibers or turf backing. Be mindful when shoveling driveways or sidewalks next to your Lawn. It is safe, however, to walk and play on your Lawn in the winter.

FIRE

Although LeoTurf Lawn is flame resistant, flames or sparks can fuse the fibers together and harm the turf. Be careful when lighting fireworks, barbecuing or smoking near your Lawn.

Product Description

- Model NO.: LT30-U
- Color: Bicolor
- Type: Without Sand
- Base: Cement Base
- Material: (PE) - Polyethylene
- Ground Cloth: Complex
- Density: 14700tufts/sqm
- Height: 30mm
- Row Spacing: 3/8 inch
- Filaments Twist Number: 7600 Dtex
- Yarn Shape: Monofilament
- Yarn Form: Straight Cut, Curl
- Yarn Length: Medium
- Cross Profile: Olive Type
- Pile Height: 30 Mm
- Stitches: 140 S/M
- Guage: 3/8"
- Yarn: 11000dtex
- Roll Length: 2m/4m

Features:

1. Similar looking and feeling as natural grass, very smooth and soft;
2. High sports performance.
3. Good durability, all weather systems;
4. Anti-UV, anti-rust, anti-mildew, non-fading;
5. Environmental friendly;
6. Quick permeability;
7. Easy for installation, maintenance and clean;
8. Natural appearance.
